

Call for Papers

JRSMTE 6th Special Graduate Student Issue

The *Journal of Research in Science, Mathematics and Technology Education (JRSMTE)* extends its sincere appreciation to everyone who contributed to the successful completion of the 5th Special Graduate Student Issue, especially our Guest Editors, reviewers, PhD supervisors, mentors, and all those who supported graduate students in developing and publishing their scholarly work.

The **Special Graduate Student Issue** is an annual edition of JRSMTE that showcases high-quality research conducted by and led by graduate students in the fields of science, mathematics, and technology education. The issue aims to support emerging scholars who, beyond academic conferences, often have limited opportunities to communicate and showcase their work at the international level.

We are pleased to announce the forthcoming **6th JRSMTE Special Graduate Student Issue**. Graduate students, supervisors, mentors, and research teams are warmly invited to consider submitting research in progress, thesis- or dissertation-based studies, and other scholarly work aligned with the scope of the journal.

Important Dates

Submission for Review Deadline: February 28, 2027
Anticipated Issue Publication: Late June/Early July 2027

Special Guest Editors

Science Education

[Ellen Watson, PhD](#)
Brandon University

[Michael Lukie, PhD](#)
University of Winnipeg

Mathematics Education
